

THE ART OF PIGMENT PREPARATIONS

AT A GLANCE

Arichemie GmbH

Medium-sized family business in the 4th generation, managed by Johan Bogaerts, Managing Director and main shareholder of the GmbH

Foundation

1956 by graduate chemist Mr Aimé de Lannoy and Mr Arnold Riege with the take-over of Schwarzfarbenfabrik Michel & Morell (founded in 1840)

Location

65817 Eppstein im Taunus, Germany

Turnover

12-14 million Euro

Employees

38

Customers

Paint and coating industry
Printing ink industry
Paper industry
Packaging industry
Construction and furniture industry
Leather and textile industry
Plastics and rubber processing industry

Arichemie GmbH

Füllstoff- und Farbenfabrik
Dipl.-Chem. A. de Lannoy

Valterweg 21 - 22

Sales regions

We distribute our products worldwide from our headquarters in Germany. Internationally, we have established a reliable sales network with long-standing partners.

Products

1. Aqueous pigment preparations:

Vocaflex, Vocaflex-LF, Vocaflex-EN, Vocaflex-RN, Vocafil-FC, Vocafil-FD, Vocateint-A, Vocafine

2. Pigment preparations for reactive application systems:

Aricolor-N, Vocaplast-UV, Vocaplast-P

3. Pigment preparations with application-specific carrier material:

Vocaplast-L, Vocaplast-A, Heliocolor-W

4. Customised solutions

Green innovations, food contact materials, toy applications, special adjustments, toll manufacturing

Our products are based on organic and inorganic pigments as well as titanium dioxide and different grades of carbon black.

GOOD REASONS TO WORK TOGETHER

We are the same and yet different. We have a lean and agile business structure. It enables us to respond quickly to changing requirements. It is the basis for quality and consistency in our role as a supplier. A diverse network of suppliers, built up over many years,

supports positive and successful product development. The trust we place in our suppliers is something we want to pass on to our customers. This builds a long-term relationship based on reliability. Continuity in product quality, delivery and service is our benchmark.

STRONG TOGETHER - UNIQUELY DIFFERENTS

Since 1840 we have been dealing with colourants and in 1956 we specialised in the development of pigment preparations. This is our core competence. As a specialist in pigment preparations, we offer a wide range of products with organic and inorganic pigments. Our core competence also includes special

adjustments based on chemical, technical and application-specific requirements as well as adjustments according to standardised colour systems or based on an original sample. It is our aim to grow with the tasks we are given and to increase our success together with our customers.

OUR KNOW-HOW – YOUR SUCCESS

We pursue our developments following technical guidelines and regulations, such as REACH, the chemical regulation, the decopaint guideline, BlmSchV, the self commitment of the chemical industry

and the prevailing norms (DIN, RAL etc.). This background will sustainably influence our product developments in the years to come.

WE TAKE RESPONSIBILITY

Sustainability has, is and will in future be of major importance. As a company of the chemical industries, Arichemie is well aware of her responsibility and contributes to sustainability with regards to mankind and environment. With the implementation of the

quality management DIN EN ISO 9001:2015 and following this, the environmental management DIN EN ISO 14001:2015 we have set a sign to the outside and have sensitized our fellow workers.

TOGETHER FOR A GREEN FUTURE

Our aim is to use and produce chemical products safely beyond the legal requirements, to use natural resources sparingly and to minimise our impact on the environment.

To this end, we have signed the guidelines of the German Chemical Industry Association (VCI) and see this voluntary commitment as motivation for our daily work.

WE ARE THERE FOR YOU. WE UNDERSTAND YOUR PRODUCTS AND CUSTOMER SATISFACTION IS WHAT WE AIM AT. TODAY AND IN FUTURE!
